

## Lindal Signature Aluminum-Clad Window System

**The finest cedar windows...now  
with maintenance-free exteriors**

For decades, Lindal Cedar Homes has crafted the most beautiful cedar windows. We now proudly announce our new Signature aluminum-clad window system. These magnificent windows and sliding and patio doors feature maintenance-free, colorfast aluminum exteriors, and the warmth of natural Lindal cedar on the inside. Each window has glazing options for enhanced energy efficiency.

These custom-sized, custom-crafted windows are an indelible part of the Lindal signature, adding a natural elegance and compatibility to our cedar homes.

Expanded information is continued on back.

**INTRODUCTORY OFFER:** Lindal clients who order house packages with these windows by June 30, 2009 will receive handsome rebates on these windows and every window option purchased. Clients who order by April 30 will also receive Neat™ self-cleaning glass at no additional charge! Home must deliver by December 15, 2009 to qualify.

Independently distributed by:

# Aluminum-Clad Window System

## Lindal windows can be customized, like our houses!

Everything about these windows is premium Lindal Signature quality from the super-efficient Cardinal LoE-366 glass, to the premium grade hardware, and the rugged and handsome frames. We call ours a **system** because it allows you to customize the windows to your liking to a greater extent than other windows we've seen. Your options include:

- Available in an **infinite array of sizes and shapes**, the Lindal Signature aluminum clad cedar windows are custom crafted in our factory for each Lindal home.
- **Glazing options** include new standard setting LoE-366 glass—exceeding Energy Star requirements, solar bronze, Neat™ self-cleaning glass, hurricane glazing for coastal areas that require it, even an option of removable protective construction film that protects the glass and reduces clean up during construction!
- **The aluminum cladding is available in a palette of over 40 colors\*\*** from white and soft hues to bold deep colors that accent the exterior, permanent colors that will not fade with age. Even the newest modern anodized metallic finishes are available.
- **Hardware options** include white, black, and tan, but also traditional oil rubbed finish and more contemporary polished nickel finish.
- You can even order the **interior screens** framed in optional cedar to add a true touch of class!

We believe there is no finer custom window system available anywhere, and surely not at Lindal prices! See your local independent Lindal dealer today for all the details.

\*Sliding glass door and patio door interiors are fir. \*\*Premium special order colors and metallic finishes require additional lead time.
